Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit <https://www.microfocus.com/support-and-services/documentation/>.

Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

New in this Release	4
Resolved Issues	5
Notes	6
Documentation	7

New in this Release

The following new features were released in Answer Server version 12.10.0.

- The third-party libraries libxml2 and libxslt have been updated, to versions 2.9.11 and 1.1.34 respectively.

Resolved Issues

The following issues were resolved in Answer Server version 12.10.0.

- When passage extraction was configured, Answer Server could print an error message about an invalid regular expression escape sequence to the console. This would not affect correct operation.
- The `QueueInfo` action (with `QueueAction=GetStatus`) would return an error when the total number of actions exceeded 999.

Notes

These notes provide extra information about installing and using Answer Server.

Deprecated Features

The following features are deprecated and might be removed in a future release.

Category	Deprecated Feature	Deprecated Since
Configuration	The <code>HMACValidation</code> configuration parameter. In version 12.9.0, the AES implementation for encrypting security info strings was updated to include built-in authentication, so additional HMAC validation is no longer required or supported.	12.9.0

Documentation

The following documentation was updated for Answer Server version 12.10.0.

- *Answer Server Reference*
- *Answer Server Administration Guide*
