

# IDOL Find

Software Version 12.10.0

## Release Notes

Document Release Date: October 2021  
Software Release Date: October 2021

## Legal notices

### Copyright notice

© Copyright 2021 Micro Focus or one of its affiliates.

The only warranties for products and services of Micro Focus and its affiliates and licensors (“Micro Focus”) are as may be set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. Micro Focus shall not be liable for technical or editorial errors or omissions contained herein. The information contained herein is subject to change without notice.

## Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit <https://www.microfocus.com/support-and-services/documentation/>.

## Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

## New in this Release

The following new features were released in Find version 12.10.0.

- Find can apply policies to documents through Apache NiFi. An administrator can configure the host name and port of a NiFi `HandleAcRequest` processor in the Find settings page. After doing this an **Apply Policy** menu item is available on search pages (unsaved search, saved search, and snapshots) so that users who are assigned the `FindBI` role can apply a policy to their search results. The policy actions are defined by your NiFi dataflow.

## Resolved Issues

The following issues were resolved in Find version 12.10.0.

- Find did not apply query manipulation when generating stored state tokens. Consequently, if documents were exported in CSV format or to ControlPoint, the exported results could differ from the intended query.

# Documentation

The following documentation was updated for Find version 12.10.0.

- *Find Administration Guide*
