Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit https://www.microfocus.com/support-and-services/documentation/.

Support

Visit the MySupport portal to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- View information about all services that Support offers
- Submit and track service requests
- Contact customer support
- Search for knowledge documents of interest
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in.

Contents

New in this Release

The following new features were released in Web Connector version 12.12.0.

- The configuration parameter `DeleteOnServerErrorCodes` has been added, so that you can choose the HTTP response codes that cause a resource to be deleted from the IDOL index when `DeleteOnServerError=TRUE`.

Resolved Issues

The following issues were resolved in Web Connector version 12.12.0.

- The connector could terminate unexpectedly when sending documents to IDOL.

- When `StayOnSite=TRUE`, the connector compared host/domain names case-sensitively and could incorrectly reject some URLs.

- The connector could take longer than expected to provide a response to `View` actions.

- Kerberos authentication could fail with Web Connector versions 12.8 to 12.11, when running on Linux.

- **(Security update)** The third-party OpenSSL library has been upgraded to version 1.1.1n to resolve a security vulnerability, CVE-2022-0778.

Supported Operating System Platforms

Web Connector 12.12.0 is supported on the following platforms.

Windows x86-64

- Windows Server 2019

- Windows Server 2016

- Windows Server 2012

Linux x86-64

The minimum supported versions of particular distributions are:

- Red Hat Enterprise Linux (RHEL) 7

- CentOS 7

- SuSE Linux Enterprise Server (SLES) 12

- Ubuntu 14.04

- Debian 8

NOTE: On Linux platforms there are some prerequisites that you must install. For more information, refer to the Web Connector documentation.

Documentation

The following documentation was updated for Web Connector version 12.12.0.
