Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for updated documentation, visit https://www.microfocus.com/support-and-services/documentation/.

Support

Visit the MySupport portal to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- View information about all services that Support offers
- Submit and track service requests
- Contact customer support
- Search for knowledge documents of interest
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts

Many areas of the portal require you to sign in. If you need an account, you can create one when prompted to sign in.

Contents

New in this Release

This section lists the enhancements to C IDOL SDK version 12.13.0.

- The C ACI API client library can now send multipart requests when OEM licensing is enabled.

Resolved Issues

This section lists the resolved issues in C IDOL SDK version 12.13.0.

- The `aciObjectParamSetStringB` function was not implemented correctly in the SDK.

Notes

On Microsoft Windows operating systems, C IDOL SDK version 12.13.0 requires the Microsoft Visual Studio 2013 redistributable package. The required files are available in the release package.

Documentation Updates

The following documentation was updated for this release:

- *ACI API Programming Guide*
