## New in this Release

This section lists the enhancements to Panopticon version 12.13.0.

- PDF decryption has been improved for Arabic text in some circumstances. When you use Microsoft Print to PDF to convert Word documents that contain Arabic text in Calibri font to PDF, the resulting file is often incomplete: information which is required to interpret the text content is missing. PDF decryption is now able to reconstruct this missing information, so that all letters are output correctly.

## Resolved Issues

There were no resolved issues in Panopticon version 12.13.0.

# Requirements
